## **Personal Statement**

I am a dually qualified Dental Hygienist and Therapist with 12 years' clinical experience. My experience is diverse, I have worked in both the NHS and private sectors of dentistry, including corporate practice and hospital settings. I have utilized and improved my entire scope of practice since leaving university, giving me confidence and skills needed to be a competent clinician within a team utilizing skill-mix.

I'm very Energetic, Enthusiastic and have been described as a 'supercharged mini dynamo' by the director of the corporate I previously worked for upon collecting the director's choice award at the annual conference in 2013.

I thrive on a challenge and work well under pressure, but always remaining ethical, patient centered and communicative. I believe that chair side manner and team working skills are two of the most important attributes to have in dentistry.

I am always looking to expand my knowledge and continue to improve my skillset through my roles, CPD and life-long learning

I also currently work for Health Education England, working across Midlands and East as Programme Lead for the Foundation training programme for newly qualified dental therapists. I organize and facilitate the programme which I am finding a great challenge and particularly enjoyable. I feel it plays to my strengths and is allowing me to develop as a mentor and teacher.

Alongside this, I sit for the GDC as a Fitness to Practice Panelist. This a role I start in January 2021

## **Current Employment:**

### **Employer name: Health Education England**

Employer Address: St Chads Court, 213 Hagley Road, Birmingham, B169RG

Type of Business: NHS

Job Title: Programme Lead, Dental Therapy Foundation Training Programme

Start Date: 10/2014

End Date: Current

Salary: NHS Band 7 AfC

Notice Period: 3 months

Description of duties and responsibilities: here, I am responsible for the organization and smooth running of the programme. The course is 12 months long involving monthly study days and portfolio completion. I organize and facilitate the study sessions and mentor the trainees through their portfolio and development, working alongside a structured curriculum to achieve satisfactory completion with them. I also carry out practice visits and inspections, recruit new Educational Supervisors and work with dental practices to integrate therapists into their teams. This role requires me to be approachable, organized, empathetic and knowledgeable. I feel it really plays to my strengths and suits my personality traits.

### **Previous Employer name: BCHC, Birmingham Dental School, School of Hygiene and Therapy**

Employer Address: Birmingham School of Dentistry, Edgbaston

Type of business: NHS

Job Title: Tutor Dental Hygiene and Therapy

Start Date: 09/15

End Date: 12/19

Salary: NHS band 7 AfC

Notice Period: 3 Months

Description of duties and responsibilities: my tutoring position allows me to gain experience in the following: exam setting and marking, invigilating, mentoring, teaching in small groups, leading discussions, lecturing, one to one personal tutoring, clinical observations, and phantom head lab teaching. Being a mentor, supervisor, teacher, and role model all come with this very rewarding position. Working as a team is undoubtedly one of the most important factors whilst demonstrating this to the students at all times.

### **Previous Employer name: Dental Perfection**

Employer Address: Burton Rd, Branston

Type of business: NHS and Private dental services

Job title: Dental hygienist and therapist

Start date: April 2019

End Date: March 2020

Salary: £30ph employed

Notice Period: 3 months

Description of duties and responsibilities: I have been with this practice since April 2019 providing mainly private hygiene and periodontal care to adult patients. I thrive on changing the lives of individual patients' no matter how insignificant of a change this may seem.

Giving advice and working together with patients to help them achieve optimum oral health and improve their general health is something I love. I enjoy the periodontal work I deliver here and have seen some fantastic results, of which I'm very proud of.
